

Good Afternoon Magic Valley Fly Fishers—Fabulous February First

Thank you one and all to those that were able to come last Saturday and make our 49<sup>th</sup> Annual Banquet & Fundraiser such a resounding success!

This also brings you our February Monthly Meeting Announcement below and in the flier which is attached. The flier has all our buffet details for this month with pictures and more info on our speaker.

With the first day of the month being today, our General Meeting on the third Thursday falls just TWO WEEKS FROM TODAY!  
Whew, hang on for fast starts!

Our speaker this month was mentioned several times by Tim Tollett in his presentation last Saturday and their friendship goes back into the early “90’s as you will read.

**John Stenersen** is one of the most accomplished fly fishermen and fly tiers in our region. You can find him most weekends on the local rivers or ponds with his son Parker and his wife Colette. John grew up on the banks of the Lemhi and Salmon Rivers fishing with his father Bob Stenersen. He started his career in the fly fishing industry in 1986 at Salmon River Angler in Salmon, Idaho and then in 1990 at Frontier Anglers in Dillon, Montana. After college in 1994, John went to work for Jimmy's All Seasons Angler in Idaho Falls, Idaho. With an opportunity to diversify himself in the fishing industry, John went to work at ClackaCraft Drift Boats in 2005, where he is currently the General Manager of ClackaCraft Idaho. As a steelhead, stillwater, and trout stream angler, John has had the opportunity to fish with a wide range of anglers, which has helped him master different fly fishing techniques. He will be presenting some of his tricks and methods for streamer fishing. With his knowledge, experience, and skills, John has become a contracted tier for JD flies and Solitude Flies.

John still ties often at Jimmy’s and we are lucky that he could schedule in our meeting this month.

We welcome him in advance.

Thank you and please, again, review the flier and RSVP for the scrumptious buffet early.

More soon, Bryan-208-934-6405; mvffeditor2014@hotmail.com
