

MAGIC VALLEY FLY FISHERS

5-9 p.m. WEDNESDAY, MARCH 16, 2022

MOUNTAIN VIEW BARN JEROME

Our own Glenn Buscher will show us his art by tying a few of his big, beautiful baitfish patterns and telling us how we can entice some like those magnificent beauties above that he caught and released recently.

We are pleased too that our consulting historian, Dr. Russ Tremayne, will give us an update on our oral-video history of Magic Valley Fly Fishers and fly fishing in the Magic Valley before and during these last 50 years. Those interviewed so far have enjoyed it, had a wealth of great stories and feel documenting our fly fishing frivolity facilitates fantastic future fly fishing fun.

Our Regional Fisheries Manager for IDFG Magic Valley, Mike Peterson, will stop by with a brief overview of their work & changes now, and what we may be able to help them with over the 2022 season ahead. We had good turnout for tagging and work with the kids last year and we hope to have projects with them, Twin Falls Canal Co. and others this year too.

The work on our 50th Anniversary Community Day and Dinner Party on Saturday, April 30 here at the Mountain View Barn is going well and will be discussed and more help requested. Our keynote speaker and club founder, Will Godfrey, will give us a 50th year show extraordinaire!!

Please RSVP for this March 16, 2022, startup meeting night ASAP so we can have Nina's superb Irish (Guinness!!) stew, burgers, salads, and maybe corned beef & cabbage a day early!

See Mountain View Barn's website www.mountainviewbarnidaho.com for info & directions.

Please visit our website at www.magicvalleyflyfishers.com for more information.

Thank you all, see you there, and call/text me any time. Bryan Woodhouse-208-934-6405
